**ENGROSSED HOUSE BILL 1057**

---

**State of Washington**                      **60th Legislature**                      **2008 Regular Session**

**By** Representatives Hudgins, Dunshee, Wood and Chase

Prefiled 1/5/2007.      Read first time 01/08/2007.      Referred to  
Committee on Technology, Energy & Communications.

1            AN ACT Relating to alternative fuels; and creating a new section.

2            BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

3            NEW SECTION.    **Sec. 1.** (1) State agencies that own and operate  
4            refueling stations shall provide the following information to the  
5            legislature by December 31, 2009:

6            (a) At which refueling sites it is practicable to offer alternative  
7            fuels for use by other state agencies and, if it is not practicable,  
8            why not. They must specify what practical limitations exist at each  
9            refueling site that make offering alternative fuel more or less  
10           difficult. Include a priority list on which stations would be most  
11           feasible to offer alternative fuels, as well as what types of  
12           alternative fuels are feasible at each refueling location;

13           (b) At which refueling sites it is practicable to offer alternative  
14           fuels for public use, and why or why not. They must specify what  
15           practical limitations exist at each refueling site that make offering  
16           alternative fuel more or less difficult. Include a priority list on  
17           which stations would be most feasible to offer alternative fuels to the  
18           public, as well as what types of alternative fuels are feasible at each

1 refueling location. Include any concerns for offering alternative  
2 fuels to the public including, but not limited to, liability and tax  
3 issues;

4 (c) Details of the agency's plans for renovating existing refueling  
5 stations or construction of new refueling stations and the associated  
6 costs;

7 (d) The cost to reconfigure existing refueling stations or  
8 construction of new refueling stations to include alternative fuels,  
9 and to offer alternative fuels at those stations to other state  
10 agencies.

11 (2) For purposes of this section, "alternative fuels" include, but  
12 are not limited to biodiesel, ethanol (E85), hydrogen, and liquid  
13 natural gas.
